

BRATTON PHYSICAL THERAPY -- CLINIC PHOTO SHOT LIST

23 photos to reshoot -- current images shown as reference

SECTION 0: HOMEPAGE HERO IMAGES

Two dedicated hero/banner images for desktop and mobile. The desktop version is landscape; the mobile version is portrait/vertical. On mobile the image is CSS-mirrored (scaleX(-1)) so avoid directional elements that would look odd when flipped. Photos are full-bleed backgrounds with a dark overlay on top -- subject framing matters.

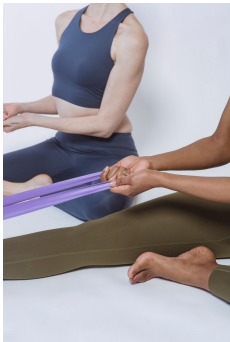

#1 hero-desktop.jpeg

Description: Homepage hero banner -- landscape orientation. Full-width background image shown at 769px+ viewport. Background-position: 50% 60%. Keep subject away from the top 60% line so it isn't centered on screen.

Appears on: Homepage hero (desktop only, 769px+)

Format: JPEG

#2 hero-mobile.jpeg

Description: Homepage hero banner -- portrait/vertical orientation. Shown at 768px and below. The image is mirrored horizontally (scaleX(-1)) so position subjects accordingly or keep symmetrical. Background-position: 50% 30%.

Appears on: Homepage hero (mobile only, <=768px)

Format: JPEG

SECTION 1: HOMEPAGE MOVEMENT MEDICINE GALLERY

Asymmetrical collage on the homepage. One large photo left, one tall/vertical right, one smaller photo overlapping at bottom. Varying sizes and orientations are intentional.

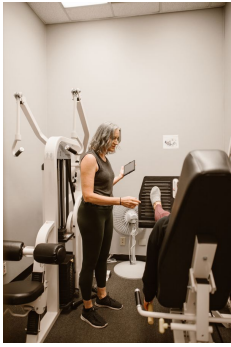

#3 movement-medicine-1.jpg

Description: Main treatment session photo -- largest in the collage, positioned left.

Appears on: Homepage (desktop and mobile)

Format: JPG

#4 movement-medicine-2.jpg

Description: Therapy session -- tall/vertical orientation, positioned right.

Appears on: Homepage (desktop and mobile)

Format: JPG

#5 movement-medicine-3.jpg

Description: Rehabilitation activity -- smaller, bottom overlap position in the collage.

Appears on: Homepage (desktop and mobile)

Format: JPG

SECTION 2: STAFF HEADSHOTS

Circular crops on screen at 120x120px. Shoot minimum 300x300 for retina. Plain/neutral background. Shoulders up, well-lit.

#6 jena.jpg

Description: Jena Bratton, PT -- headshot. Circular crop, 120x120px on screen.

Appears on: /staff/ page (desktop and mobile)

Format: JPG

#7 jacob.jpg

Description: Jacob D'Angelo, Patient Care Coordinator -- headshot. Circular crop, 120x120px.

Appears on: /staff/ page (desktop and mobile)

Format: JPG

#8 madyson.jpg

Description: Madyson Boehm, Rehab Technician -- headshot. Circular crop, 120x120px.

Appears on: /staff/ page (desktop and mobile)

Format: JPG

SECTION 3: SERVICE PHOTOS

Each shown as a card on both the homepage services grid and the service detail page. Landscape 4:3 aspect ratio. Some homepage cards use .webp versions but JPG source is what you shoot.

#9 therapeutic-exercise.jpg

Description: Patient performing therapeutic exercise or stretching with therapist guidance.

Appears on: Homepage card + /services/therapeutic-exercise/ page (desktop and mobile)

Format: JPG

#10 dry-needling-certified.jpg

Description: Dry needling treatment being performed by therapist.

Appears on: Homepage card + /services/dry-needling-certified/ page (desktop and mobile)

Format: JPG

#11 cupping.jpg

Description: Cupping therapy being performed -- cups visible on patient's skin.

Appears on: Homepage card + /services/cupping/ page (desktop and mobile)

Format: JPG

#12 mckenzie-method.jpg

Description: McKenzie Method assessment or treatment -- typically back or neck positioning with therapist guidance.

Appears on: Homepage card + /services/mckenzie-method/ page (desktop and mobile)

Format: JPG

#13 gait-balance-training.jpg

Description: Patient doing gait or balance training activities with therapist.

Appears on: Homepage card + /services/gait-balance-training/ page (desktop and mobile)

Format: JPG

#14 blood-flow-restriction-therapy.jpg

Description: Blood flow restriction band or cuff being used during exercise by patient.

Appears on: Homepage card + /services/blood-flow-restriction-therapy/ page (desktop and mobile)

Format: JPG

#15 strength-conditioning.jpg

Description: Patient doing strength and conditioning -- weights, bands, machines, or bodyweight.

Appears on: Homepage card + /services/strength-conditioning/ page (desktop and mobile)

Format: JPG

#16 workers-compensation.jpg

Description: Work-related rehabilitation or job simulation activity.

Appears on: Homepage card + /services/workers-compensation/ page (desktop and mobile)

Format: JPG

#17 electrical-stimulation.jpg

Description: Electrical stimulation device and electrodes being used on patient.

Appears on: Homepage card + /services/electrical-stimulation/ page (desktop and mobile)

Format: JPG

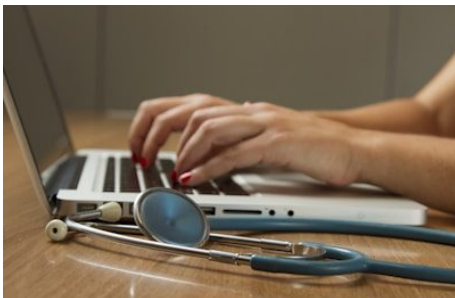

#18 moist-heat-ice.jpg

Description: Moist heat pack or ice pack being applied to patient.

Appears on: Homepage card + /services/moist-heat-ice/ page (desktop and mobile)

Format: JPG

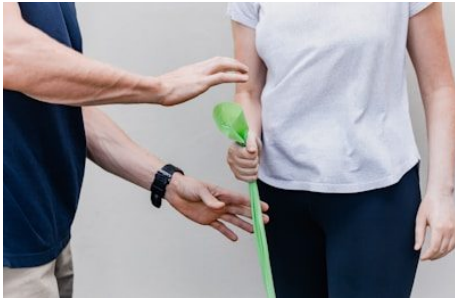

#19 patient-education.jpg

Description: Therapist explaining or educating a patient -- anatomical model, diagram, or hands-on.

Appears on: Homepage card + /services/patient-education/ page (desktop and mobile)

Format: JPG

#20 mulligan-technique.jpg

Description: Mulligan mobilization technique being performed on patient by therapist.

Appears on: Homepage card + /services/mulligan-technique/ page (desktop and mobile)

Format: JPG

SECTION 4: RECOVERY PHASE PHOTOS

Recovery Phases tabs on homepage. Phases 1-3 reuse existing service photos. Only phases 0 and 4 need dedicated shots.

#21 pain-relief.jpg

Description: Pain relief phase -- protection, rest, ice, elevation, early-stage recovery.

Appears on: Homepage recovery phases section (desktop and mobile)

Format: JPG

#22 recovery-prevention.jpg

Description: Recovery and prevention phase -- return to sport/activity, advanced exercise.

Appears on: Homepage recovery phases section (desktop and mobile)

Format: JPG

SECTION 5: MISC DEVICE PHOTO

Product-style shot of actual clinic equipment. Clean/plain background so the device stands out.

#23 vaso.png

Description: The vasopneumatic compression device -- actual clinic machine and sleeves.

Appears on: Homepage service card + /services/vasopneumatic-compression/ page (desktop and mobile)

Format: PNG

SHOOTING NOTES

- All photos appear on both desktop and mobile. The site is fully responsive.
- Hero images (Section 0): Desktop is landscape, mobile is portrait. Mobile image is CSS-mirrored (scaleX(-1)) -- keep subjects centered or symmetrical to avoid awkward flips.
- Service card photos display at roughly 4:3 landscape aspect ratio on the homepage grid.
- Movement medicine gallery (Section 1): One vertical and two horizontal/square compositions work best due to the asymmetrical collage layout.
- Staff headshots (Section 2): Shoulders up, well-lit, plain/neutral background. Display at 120x120px circular crop.
- Service photos (Section 3): Shoot in landscape orientation. Used at top of service detail pages and as homepage cards.
- Recovery phase photos (Section 4): Phases 1-3 reuse existing service photos. Only phases 0 and 4 need dedicated shots.
- Vaso device (Section 5): Product-style shot on a clean background. This is the only PNG -- all others are JPG.
- File names MUST match exactly as listed. The site code references these specific file paths.
- Shoot at the highest reasonable resolution. Images can be resized down later.
- For photos with both therapist and patient, ensure both faces are visible and the activity is clear.

FILE SUMMARY

Section 0 -- Homepage Hero Images	2 photos
Section 1 -- Homepage Movement Gallery	3 photos
Section 2 -- Staff Headshots	3 photos
Section 3 -- Service Photos	12 photos
Section 4 -- Recovery Phase Photos	2 photos
